

# AMBISOUND RECORDING SERVICE

## **A Special Concert Recording Service for performing groups, orchestras and choirs in South East England.**

Ambisound Recording Service are now offering a FREE professional digital recording of your concerts and live performances. All you have to do in return, is order a minimum of 25 cd's of the finished recording from us. Our cd's are duplicated using the highest quality discs and come in environmentally friendly and stylish packaging. Each disc will include a printed insert with all the details of your concert, including the programme and performers along with any extra information you'd like to include. Cd's cost just £10.00 each, and for a double cd the cost is £15.00.

At Ambisound we specialise in recording choral and classical music and through our experience and expertise, are able to capture the magic of live performances without causing any disruption to the event itself. Using the latest in digital recording technology and equipment, we are able to produce recordings of pristine clarity in a wide range of locations and situations. All our recordings are professionally mixed and mastered prior to duplication to ensure your discs are produced to the highest professional standard and sound quality.

In talking to a range of musicians and performers, we have found that many feel it is a shame not to be able to have a permanent record of their concert performances, especially considering the time and effort that goes into them. In response to this, our new service aims to make it as easy and economical as possible for groups to record as many performances as they want.

If you would like to take up this offer, simply print off the attached CD Order Form and pass it around at your next rehearsal, and as long as there are 25 orders or more, we will come and record your concert. Fill in the attached booking form with all the details of the concert date and venue and send it back to us, or email us at the address below. If your concert occurs on a weekend, please be as prompt as possible in replying to us as we can get booked up quite far in advance. If you have any other queries, please call **John** on **07778 213476** or send us an email. Our website **[www.ambisound.co.uk](http://www.ambisound.co.uk)** also has all our contact details along with examples of some of our recordings that you can listen to, and more information on the wide range of services we offer.
